EXPERIENCE

06/2024 - 06/2025
BKK, Phnom Penh

Frontend Developer
GTech Cambodia

- Completed a 3-month internship and was promoted by the Senior Front-End Web Developer in recognition of strong performance and growth. Continued working in the role for one year.
- Developed responsive user interfaces using HTML, CSS(Tailwind), JavaScript, TypeScript and Nuxt.js to ensure smooth performance across desktop, tablet and mobile device.
- Gained experience maintaining the company website, including updating the UI and integrating API data.
- Optimized website performance by implementing lazy loading, reducing asset sizes, and improving load times using tools like Vite and Webpack.
- Integrated front-end components with RESTful APIs, ensuring seamless communication between client and sever using JSON data formats.
- Tested and debugged API response, handle HTTP method (GET, POST, PUT, DELETE), and ensured smooth data flow to the frontend.
- Leveraged Nuxt UI components to build dynamic user interfaces, ensuring consistent design and smooth functionality across different device.
- Successfully led a major client project from planning to deployment, achieving all goals ahead of schedule and receiving positive feedback from the client.
- Used Git for version control and collaborated with team members via GitHub to manage branches all pull requests efficiently.

EXPERIENCE

02/2022 - 07/2023
